

Hopefully, showing the FCC I made a good faith effort to comply in a timely fashion, to correct the Form 486 incorrect Service Start Dates on both 486 forms.

FORT STOCKTON INDEPENDENT SCHOOL DISTRICT

This is the initial Appeal I prepared for USAC showing the date documented I believed to have scanned and emailed to USAC appeals.

Fort Stockton ISD respectfully submits this Appeal to USAC to correct a mis-type Service Start Date on our submitted Form 486. This mis-type was realized after two 486 forms had already been successfully submitted and certified. I was unable to correct my mistake at that point. Client Service Bureau directed me to submit an appeal to USAC explaining my error when I received the Form 486 Notification Letter.

**Identify the Problem**

I made a clerical error when filing our Form 486 # 996105. I inadvertently chose 07/31/2013 as my Service Start Date which is incorrect. The correct Service Start Date is 07/01/2013.

**Supportive Data Documents Included**

1. Funding Commitment Decision Letter for Funding Year 2013 for FRN # 2538214 showing the correct Service Start Date of 07/01/2013 awarded.
2. Form 486 Notification Letter for Form 486 Application # 996105 showing the incorrect Service Start Date.
3. Initial Contact- Case 22-575224 inquiry when I realized my mistake.

**FORT STOCKTON INDEPENDENT SCHOOL DISTRICT**

**Relief Sought through this Appeal**

I respectfully ask USAC to understand I made a clerical error on the Form 486 # 996105, Service Start Date, and to please allow the district to change the Service Start Date to 07/01/2013 on our certified Form 486 # 996105 affecting FRN# 2538214. The district never knowingly intended to defraud or cheat any E-rate or FCC rules or regulations in any way. Please consider Fort Stockton ISD's plea to correct the Service Start Date on this aforementioned Form 486. Fort Stockton ISD has made good faith efforts to comply with E-rate rules and regulations.

Respectfully submitted,
