Would you be able to extend the E-Rate Form 471 deadline date of 3-28-2014 to allow acceptance of the Billings Oklahoma Public School's E-Rate Form 471, by the USAC Schools and Libraries Division?

This is the first year that I have requested E-Rate funding for Billings Public Schools and have had no prior experience. The school doesn't have the budget for a consultant to assist with the E-Rate process and unfortunately I was not aware of the USAC SLD's Form 471 deadline of 3-28-2014. The school doesn't have anyone in administration available to handle the responsibility of E-Rate filling. This is a small school district and I wear several "hats" along with being the Technology Instructor so I spend a lot of time with our kids.

Thanks for assisting us with this.

Sincerely,

Sue Barnnard
