**Ex Parte**

Marlene H. Dortch, Secretary  
Federal Communications Commission  
445 12th Street SW  
Washington, DC 20554

*Re: Expanding the Economic and Innovation Opportunities of Spectrum through  
Incentive Auctions, GN Docket No. 12-268*

Dear Ms. Dortch:

On April 8, 2014, Paula Boyd of Microsoft Corporation and I spoke via telephone with Louis Peraertz, Legal Advisor to Commissioner Clyburn, regarding the above-referenced proceeding. During this meeting, we discussed the ability of IEEE 802.11af white space devices to operate in technically reasonably sized guard band spectrum, as well as the importance of enabling opportunistic access to at least four 6 MHz channels in each market, such as the guard band, duplex gap, previously reserved wireless microphone channels, and Channel 37.

Pursuant to the Commission's rules, a copy of this notice is being filed electronically in the above-referenced docket. If you require any additional information please contact the undersigned.

Sincerely,

*/s/ Rob Carter*

S. Roberts Carter  
*Counsel for Microsoft Corporation*
