To the Commission: I concur entirely with the reply comments of the Fixed Wireless Communications Coalition (FWCC) with the exception that I feel even FWCC's approach is not broad enough. I strongly reiterate the Commission should adopt, in addition to or in lieu thereof, the undersigned's Petition for Rulemaking premised on authorizing these and similar operations, including FWCC's, under Part 15 with no licensing requirement. Again, I very strongly agree with - and no doubt could easily live with - FWCC's approach...I just hope the Commission's ultimate decision goes 'long.' Respectfully submitted: /s./ James Edwin Whedbee
