Request for Waiver

April 19, 2014

UFC Schools and FCC

The Notus School District is requesting a waiver with the Federal Communications Commission regarding the filing of our 471 form out of the window date. The specific reason for this out of window compliance was due the person responsible was out of state and unable to complete the form. This is an oversight on our small school district and we have put into place a second person that can complete the process so that this will not happen in the future. There is no documentation available for this waiver other than I can provide if needed the vacation request form for the dates.

Billed Entity Number: 142740

Funding Year July 2014 through June 30, 2014

Form 471 Application Number: 992652 Certified-Out of Window

Please let me know if you need any other information regarding this Request for out of Window Waiver.

Sincerely,

Craig M. Woods
