**Re: Expression of Interest – Rural Broadband Trials  
Connect America Fund, WC Docket No. 10-90**

Dear Chairman Wheeler, Commissioners, and Mr. Chambers,

This letter is to express On Time Communication’s interest in receiving funding from the Rural Broadband Trials announced at the January 30<sup>th</sup> FCC Open Meeting.

**Background**

On Time Communications, LLC ‘s corporate office is located at 200 Hampton Avenue Suite A, in Kingstree, SC 29556. OTC, founded in 2009 is a minority and female owned corporation with a knowledgeable staff of qualified professionals and telecommunications experience spanning over 25 years. OTC’s partner, Copper River IT was established in 2006 as a Federally Recognized Alaskan Tribal 8(a) Certified entity under the authority of the native Village of Eyak, provides progressive, program-focused IT solutions based on expert engineering, agile execution and proven past performance. They are the premier provider of all aspects of wireline, wireless and Broadband infrastructure, technology and services.

See Addendum #1 for OTC’s Biographies

See Addendum #2 on Copper River’s Qualifications

**OTC** is a marketing technology company bringing Broadband applications to underserved populations in rural and inner-city communities and in job creation and sustainability in emerging markets.

## Summary of Capabilities for OTC

On Time Communications (OTC) is a private South Carolina based minority owned company, which provides broadband related service to residential and commercial clients. OTC develops relationships with municipal and commercial entities to proliferate the installation and management of broadband networks to public and private end-users within a defined geographic area.

- Modeling Business
- Planning Budgeting
- Financing
- Management Project
- Relations Governmental
- Contracting
- Services Branding Marketing &
- Planning Educational
- Relations Community

OTC places a high value on development and usability of the network to increase and improve:

- Broadband infrastructure Rural
- Residential Services Offered by Municipalities Commercial &
- Entrepreneurial Development & Support Business and

- Access for K-12 and Adult Learners Educational
- Access and Monitoring Healthcare
- Seniors and Assisted-Living Facilities Access for
- of life Veterans quality

Currently, OTC has an Agent Agreement with Copper River, a federally recognized and 8(a) company, a provider of numerous Contract Vehicles, and multi-vendor certified, etc. and resolutions with governmental entities in NC to provide enhanced broadband technology.

OTC's goals for the future include (1) reducing the digital divide and provide broadband technology to rural un-served and underserved populations, and (2) the deployment of WiMax (Worldwide Interoperability for Microwave Access) as a replacement candidate for cellular phone technologies.

**Geographic Territory**

On Time Communications, LLC and Copper River IT and Copper River Telecom will provide improved fiber infrastructure and advanced broadband technologies to the town of Spring Lake, throughout the counties of Cumberland, Harnett, Sampson, Lee, Moore, Hoke, Montgomery, Richmond, Scotland, Robeson and Bladen, and the Fort Bragg Military Base. The goal is to implement the 'Smart City' concept in Spring Lake and expand the broadband technology to Cumberland and the surrounding 10 counties.

LTE & small cell technology delivering a wireless overlay to a carrier grade optical fiber network for back haul and or long haul.

Contemplated service offering (e.g., description of voice services, broadband speed tiers, nature of video service, if any) will include the following, at a minimum.

**List of Anchor Institutions**

**Schools and Colleges:** *The total number of secondary schools in each county and in each category will be listed here and will be named and identified in Addendum #3*

**Cumberland County:** Primary Schools (2); Elementary Schools (50); Middle Schools (18) and High Schools (16)

Colleges, Universities, Technical and Charter Schools: 1) Carolina College Of Biblical Studies, 2) Fayetteville State University 3) Fayetteville Technical Community College, 4) Methodist University, 5) Alpha Academy (a charter school)

**Sampson County Schools:** Elementary Schools (8); Middle Schools (5); High Schools (5)

Colleges and Universities: 1) Sampson Community College

**Harnett County Schools:** Primary Schools (4); Elementary Schools (12); Middle Schools (5); High Schools (4) Other (2)

Colleges and Universities: 1) Central Carolina Community College, 2) Harrison College, 3) Campbell University, 4) Wake Technical Community, 5) Lillington Adult Education Center

**Lee County Schools:** Elementary Schools (8), Middle Schools (4) High Schools (3) Other (1)

Colleges and Universities: 1) Lee University, 2) William State Lee College of Engine

**Moore County Schools:** Elementary Schools (8); Middle (3); High Schools (1)

Colleges and Universities: 1)University of Pembroke, 2) Methodist University, 3) Sandhill Community College, 4) Dr. Marguerite Moore College of Textiles and Apparel, Technology and Management

**Hoke County Schools:** Elementary Schools (8); Middle Schools (3); High Schools (2)

Colleges and University: 1) Pinehurst NC Placement, 2) Sandhills Community College, 3) Isothermal Community College

**Montgomery County Schools:** Elementary Schools (5); Middle Schools (2) High Schools (2) Other (1)

Colleges and Universities: 1) Montgomery Community College, 2) Catawba Valley Community College, 3)Catawba College, 4) Carteret Community College, 5) Cape Fear Community College

**Richmond County Schools:** Elementary Schools (7); Middle Schools (4); High Schools (5), Alternative Schools (1)

Colleges and Universities: 1) Richmond Community College

**Scotland County Schools:** Primary Schools (1); Elementary Schools (8) Middle Schools (2); High Schools (2)

**Robeson County Schools:** Elementary Schools (23) Middle Schools (11); High Schools (6) Career Centers (1) Colleges and Universities 1) Robeson Community College

**Bladen County Schools:** Primary Schools (6); Elementary Schools (1); Middle Schools (3); High Schools (2); School of Discovery (1) Colleges and Universities: 1) Bladen Community College

=====

**Libraries**

**Cumberland County:** (9) Locations in Bordeaux, Cliffdale, Court, E. Regional, Headquarters, Hope Mills, North Regional, Spring Lake, West Regional

**Sampson County: (6)**

Library	Street	City	State	Zip	County	Phone
Bryan Memorial Library	302 WEST WEEKSDALE STREET	<u>Newton Grove</u>	North Carolina	28366	Sampson	9105941260
J.C. Holliday Library	217 GRAHAM STREET	<u>Clinton</u>	North Carolina	28328	Sampson	9105924153
Miriam B. Lamb Memorial Library	144 SOUTH CHURCH AVENUE	<u>Garland</u>	North Carolina	28441	Sampson	9105292441
Roseboro Public Library	300 WEST ROSEBORO STREET	<u>Roseboro</u>	North Carolina	28382	Sampson	9105255436
Sampson-Clinton Public Library Bookmobile	217 GRAHAM STREET	<u>Clinton</u>	North Carolina	28328	Sampson	9105924154
Sampson-Clinton Public Library System	217 GRAHAM STREET	<u>Clinton</u>	North Carolina	28328	Sampson	9105924153

**Harnett County:** (5) Locations in Lillington, Dunn, Coats, Angier and Erwin

**Lee County:** Lee County Library System in Sanford

**Moore County:** (6) Main location in Carthage, branch libraries in Aberdeen, Pinebluff, Robins and Vass, and a bookmobile

**Hoke County:** Hoke County Library in Raeford

**Montgomery County:** Montgomery County Public Library in Troy

**Richmond County:** (3) Locations in Rockingham, Hamlet, and Ellerbe

**Scotland County:** Scotland County Memorial Library in Laurinburg

**Robeson County:** Robeson County Public Library in Lumberton

**Bladen County:** Bladen County Public Library in Elizabethtown

=====

### **Hospitals**

Cumberland County: (2) Cape Fear Valley Medical Center; Fayetteville N. Medical Center

Sampson County: Sampson Regional Medical Center

Harnett County: Betsy Johnson Regional Hospital

Lee County: Central Carolina Hospital; Oak Ranch + 18 other health care facilities

Moore County: (2) Moore Regional Hospitals

Hoke County: Cape Fear Valley + 20 other health care facilities

Montgomery County: Montgomery Memorial Hospital

Richmond County: Richmond Memorial Hospital

Scotland County: Scotland Health Care Center

Robeson County: Southeastern Medical Center

Bladen County: Bladen County Hospital

---

---

### **City and County Offices**

**Cumberland County:** (14) Cumberland County Office; Towns of 1) Eastover, Falcon, Fayetteville, Godwin, Haymount, Hope Miles, Lakedale, Linden, Owens, Spring Lake

Stedman, Vander, Wade

**Sampson County:** (17) Sampson County Offices; Town offices: Autryville, Bonnetsville, Clinton, Delway, Garland, Harrells, Ingold, Ivanhoe, Keener, Newton Grover, Plain View, Roseboro, Salemburg, Turkey, Spiveys Corner, Vann Crossroads

**Harnett County:** (9) Harnett County Office; Towns of Anqier, Buies Creek, Bunnlevel, Coats, Dunn, Erwin, Lillington, Mames

**Lee County:** (4) Lee County Office; Towns of Sanford, Broadway, Jonesboro Heights

**Moore County:** (12) Moore County Office, Towns of Aberdeen, Carthage, Foxfire Village, Southern Pines, Pinebluff, Robbins, Vass, Cameron and Taylortown. . Villages of Pinehurst and Whispering Pines

**Hoke County:** (8) Hoke County Office; Towns of Ashley Heights, Bowmore, Dundarrach, Five Point, Raeford, Silver City, Rockfish

**Montgomery County:** (6) Montgomery County Offices, Towns of Biscoe, Candor, Star, Troy, Mount Gilead

**Richmond County:** (14) Richmond County Office; Towns of Cordova, Dobbins Heights, East Rockingham, East Side Park, Ellerbe, Glenwood, Hamlet, Hoffman, Knob Hill, Maplewood, New Town, Norman, Rockingham

**Scotland County:** (8) Scotland County Offices; Towns of Crump Town, East Laurinburg, Gibson, Laurel Hill, Laurinburg, Old Hundred, Wagram

**Robeson County:** (24) Robeson County Office; Towns of Baker, Ten Mile, East Lumberton, Elord, Fairmont, Lumberton, Lumber Bridge, Marietta, Maxton, McDonald, Orrum, Parkton, Pembroke, Proctorville, Prospect, Raemon, Raynham, Red Spring, Rennert, Rex, Rowland, Saint Pauls, Shannon ,Wakulla

**Bladen County:** (11) Bladen County Offices; Towns of Bladenboro, Butters, Clarkton, Dublin, East Arcadia, Elizabethtown, Kelly, Tar Hill, White Lake, White Oke

**Businesses and Industries:** All businesses in the 11 county area will be given the option to access the enhanced broadband technology. The county with the most businesses is Cumberland with 21,489 and the home of Ft. Bragg.

---

---

### **Community/Recreation Centers**

**Cumberland County:** (17) Cliffdale, College Lakes, E.E. Miller, Eastover Central, Gilmore Therapeutic Rec Center, Gray's Creek, J. S. Spivey, Kiwanis, Lake Rum,

Massey Hill, Myers, Pine Forest, Smith, Steadman, Stoney Point, Westover Tokay Fitness Center

**Sampson County:** Sampson County Parks and Recreation; 405 County Complex Road; Clinton, North Carolina 28328

**Harnett County:** (5) Neill's Creek County Park, Barbecue Creek County Park, South Harnett Park, Anderson Creek Park Cape Fear River Trail Park

**Lee County:** (1) San- Lee Park; 572 Pumping Station Road; Sanford, NC 27330; (919)776-6221

**Moore County:** (1) Moore County Parks and Recreation; 155 Hillcrest Park Lane; PO Box 905; Carthage, NC 28327; 910-947-2504

**Hoke County:** (1) HOKE COUNTY; PARKS & RECREATION; 423 East Central Avenue Raeford, NC; Phone 910-875-4035

**Montgomery County:** (5) Montgomery County Parks and Recreation; Town of Biscoe Parks & Recreation; Mill Street; Troy, N.C. 27371; Phone: (910) 428-4112 (2) Town of Candor Parks & Recreation; E. Railroad St.; Troy, N.C. 27371; Phone: (910) 974-4221 (3) Town of Mount Gilead Parks & Recreation; Allenton Street; Troy, N.C. 27371; Phone: (910) 439-5111 (4) Town of Star Parks & Recreation; Star Memorial Park; 228 East Street; Star, NC 27356; Phone: (910) 428-4623 (5) Town of Troy Parks & Recreation; Allenton Street; Troy, N.C. 27371; Phone: (910) 572-3661

**Richmond County:** (1) Richmond County Parks & Recreation; 135 Safie Sixth St.; Rockingham, NC 28379; (910) 997-8331

**Scotland County:** (3) Scotland County Parks and Recreation; 1210 Turnpike Road; PO Box 1668; Laurinburg, NC 28352 (2) Wagram Recreation Center; 24441 Marlboro Street; Wagram, NC 28396 (3) Lauren Hill Community Center in Laurinburg

**Robeson County:** (1) Lumberton Recreation Department: 1100 North Cedar Street Lumberton, North Carolina 28358

**Bladen County:** (2) Bladen County Park: 803 W King Street; Elizabethtown, NC 28337 and Town of Elizabethtown: 805 West Broad Street;

### **Proposed technology**

LTE & small cell technology delivering a wireless overlay to a carrier grade optical fiber network for back haul and or long haul.

Contemplated service offering (e.g., description of voice services, broadband speed tiers, nature of video service, if any) will include the following, at a minimum. We hesitate to speculate about pricing of such services, at this time, because our technical partners have not yet conducted their detailed analysis. That will certainly be done as part of our formal application.

1. Commercial
2. Emergency response / Homeland security
3. Public hotspots

Services - Voice / Video / Data (municipal, commercial, and residential)

1. E Learning / E Library
2. Telehealth / Telemedicine
3. IPTV
4. Weather alert
5. Emergency response
6. Homeland security
7. Gaming
8. Disaster recovery

### **State and/or Local or Tribal Government Participation in and/or Support for Project**

---

---

In order for any project to be successful, and especially one of this magnitude with the ability to change the technology potential of the area, every effort will be utilized to consider every segment of the population from the young to the old, the various ethnic groups, persons in various professions and business endeavors, and the specialized interests, and the culture and history of the Native American population.

Already, conversations has ensued with the town of Spring Lake, where we have received a Resolution to engage in an enhanced technology project that will originate there and expand into Cumberland County. Additionally, we have met with and began dialogue on the proposed technological enhancements with Harnett County officials. From there, plans are to meet with representatives from the additional 9 counties, every city, village and town of all Counties to build relationships and include the communities in providing input for the project.

The majority of North Carolina's American Indian population live in Robeson County (mostly Lumbee) and accounts for 38% of the county's total population. Thus, every effort and emphasis will be employed to incorporate them in every aspect of this process.

---

---

The American Indian tribes in Cumberland County are represented through the Cumberland County Association for Indian People and the organizations addressing the

American Indians in all the counties will be approached and included in the collaborations and process.

In the process of requesting and acquiring right-of-ways and permits, our collaborating partner, Copper River Telecom, has already been actively involved in operations and strategic alliances with extensive projects at Ft. Bragg and other military bases and has staff with expertise in this area. Additionally, staff members at OTC have experience and have been involved with permitting processes and right-of way acquisitions from cities, counties, states and railway. Additionally, contacts and collaborations have been ongoing with the Small Business Development Center in NC and all of Chambers of Commerce will be approached, informed and asked to support the technological advancements in their of their respective areas. Early in the process, contacts will be made with the permitting and right-of-ways agencies to engage and get their support.

### **Existing Providers**

In the 11 county area, existing Providers are Comcast, Dish Network, Charter Communication. For Time Warner the he basic service price starts at \$ 29.99 and internet is available up to 20 Mbps.

### **Project Timeline; Scalability; Total Business Investment; Investment Needed; Total Project Cost**

**Is fiber cost prohibitive to deploy in rural areas absent government subsidies and to what extent are non-incumbent entities interested in providing broadband which exceeds the current 4Mb/1Mb broadband requirement under CAF (Connect America Fund).**

Our technical partner will assist us in conducting a more formal study of all incumbents and most cost-effective technical design and network options in our more formal application but generally, yes, rural areas are difficult to cost-benefit justify in terms of ROI (principally due to the lower subscriber and overall usage demand compared to urban areas). Still, our partners have utilized blown fiber installations, for example, as one aspect of their solutions package to more economically address networking needs while lowering the investment level required.

**Where in terms of geographic and demographic characteristics might providers choose to provide broadband over fixed wireless service and at prices reasonably comparable to urban wireline offerings.**

Private LTE network and fiber backhaul/longhaul in 11 counties surrounding Ft. Bragg to revive areas and business normally deprived by self-sustained military facilities.

**The broadband technology or technologies to be deployed.**

LTE & small cell technology delivering a wireless overlay to a carrier grade optical fiber network for back haul and or long haul.

Contemplated service offering (e.g., description of voice services, broadband speed tiers, nature of video service, if any) will include the following, at a minimum. We hesitate to speculate about pricing of such services, at this time, because our technical partners have not yet conducted their detailed analysis. That will certainly be done as part of our formal application.

4. Commercial
5. Emergency response / Homeland security
6. Public hotspots

Services - Voice / Video / Data (municipal, commercial, and residential)

9. E Learning / E Library
10. Telehealth / Telemedicine
11. IPTV
12. Weather alert
13. Emergency response
14. Homeland security
15. Gaming
16. Disaster recovery

**Whether the proposal is expected to require one-time or continuous funding and a high-level estimate of the amount of funding requested.**

In our initial assessment, we believe the overall investment required for the entire 11-county area will be \$60 million. However, we have initiated discussions with prospective private investors and will continue to pursue alternative capital planning options. For purposes of this Expression of Interest, we believe we may propose requesting approximately one-half that amount in government subsidies. Once we see future grant application requirements we will of course blend those requirements with our investment sources to specify the need for requested funds as part of our application.

We assume the 11-county design and technical network implementation will require continuous intermittent funding during the 24-36 month development and start-up phases.

**Pertaining to CAF and Broadband Experiments are providers willing and capable of providing broadband with performance characteristics well in excess of incumbent Price Cap carriers for the same amount or less support than that calculated by the forward looking cost model.**

We have not yet studied the CAF. In the experience of our technical partners often working cooperatively and, at times, in competition with incumbent carriers, their end-user solutions often require less forward looking support.

As an initial glimpse, our technical partners have provided us the following excerpts as part of their preliminary design:

Private LTE network and fiber backhaul in 11 counties surrounding Ft. Bragg to revive areas and business normally depraved by self-sustained military facilities.

226 Base stations & 1332 fiber miles estimated.

Full turn-key project: Design, site acquisition, zoning, permitting, all civil, all electrical, construction, NSBs, installation and maintenance. (Annual maintenance has not yet been quoted.)

Costs of building a WiMax Network to service the area

- LTE design and build for 11 counties
  1. Commercial
  2. Emergency response / Homeland security
  3. Public hotspots
- Vendor selection / Procurement
- Consumables / Procurement

Land requirements (or partnerships to rent space)

- Site acquisition (design dependent)
- Zoning and leasing prior to any build
- New site builds where applicable

Regulations and application for/to the FCC for NC service

- Building permits
- Environmental assessment
- Structural assessments where applicable
- Private frequency licensing
- Civil / Construction state and local requirements

Timeline for construction

- TBD
  1. Design
  2. Site Acquisition
  3. Regulatory
  4. Equipment lead times

5. Crew mobilization / deployment
  - New site builds
  - Existing sites

Contractor needs (for determining local job placements)

Thank you for considering our Expression of Interest in your decisions about the amount of funding that will be allocated in the Rural Broadband Trials. We commend you in this effort to connect rural communities and are ready to help you close the digital divide.

Sincerely,  
Cassandra Williams Rush, CEO On Time Communications, LLC  
(803) 397-1859

## ***Addendum #1***

### ***Corporate Biography Summary of On Time Communications, LLC***

#### **Pat Healy, President and Founder of On Time Communications, LLC**

Patricia Healy, past-President and owner of Striping America, LLC brings vision and networking capability experience. In 2004 Patricia incorporated Step Up to Perfection, LLC to provide construction cleanup and finishing services throughout the Southeast US region. Step Up to Perfection successfully managed private and Historically Underutilized Business (HUB) hotel contracts in Mississippi, Tennessee, North Carolina, and South Carolina for four and a half years. In 2007 and 2008 Ms. Healy was appointed to a staff position with the Obama/Biden campaign where she served in Colorado, Mississippi, North Carolina and South Carolina. Later, Patricia worked with the South Carolina Department of Transportation (SC DOT) to provide road striping and thermoplastics.

Her certification experience includes:

- EPA Lead Based Abatement
- SC DOT Small Minority Disadvantaged Business
- Road Striping and Thermoplastic
- City of Columbia Small and Minority Business
- OSHA Safety
- SC Governors Office Small Minority Business
- Small Disadvantaged Business.

#### **Cassandra Williams Rush, CEO, On Time Communications**

Cassandra Williams Rush has served as president and CEO of Rush STEM Consultants and brings years of corporate experience from a career with (Southern Bell, Bell South) now AT&T and later Project and Data Manager of National Science

Foundation (NSF) \$2.5 million HBCU-UP grants. She holds an undergraduate degree in chemistry and an advanced degree in Public Health with a concentration in Environmental Health Science.

- Telecommunication Engineering 15 + years in
- Chemist Inorganic
- Facilities (Outside Plant) Engineer Former
- Data Management Project and
- Management Business

She holds a BS in Chemistry from Morgan State University and a MPH (Environmental Health Science) from the University of South Carolina. She brings over 40 years of life experience from higher education, and managing projects in both the private and public sectors.

### **Joseph Tobiere, Jr. V. President of Information Technology, OTC, LLC**

With over 25 years experience in installing and 15 years experience in splicing, testing and installing fiber optics cable. Mr. Tobiere provides unparalleled knowledge and experience in fiber optic infrastructure and technology.

He served 12 years in the United States Air Force (E-5 upon separation) as an Aircraft Electro Environmental Systems Specialist, a Squadron Computer Maintenance Technician, and an Electrical and Environmental Systems Shift Supervisor. He holds an Associate Degree in Aircraft Maintenance Technology. Additionally, he is certified as a Microsoft Systems Engineer, certified as a Xerox Analysis, certified NEC Technician and certified as a Novell Technician.

## **Addendum #2**

### **About Copper River IT**

Copper River IT was established in 2006 as a Federally Recognized Alaskan Tribal 8(a) Certified entity under the Authority of the Native Village of Eyak. Headquartered in Anchorage, Alaska, Copper River provides progressive, program-focused IT solutions based on expert engineering, agile execution and proven past performance. Copper River IT provides Network Engineering, Systems Engineering, Program Management, and Education Services that deliver a solid framework for uninterrupted operations.

Copper River has established itself as a premier provider of IT services and solutions for Government clients in the Defense, Intelligence, and Civilian Agencies, as well as within commercial verticals such as Service Provider, Health care, and Education. Our offerings expand, strengthen, and support national security strategy and policy, intelligence programs, counter-terrorism efforts, law enforcement activities, and information assurance initiatives.

### **About Copper River Telecom**

Communication technology is constantly improving and networks are growing to support exciting innovation. Copper River IT's Telecom Division is not only keeping pace with that evolution, we're driving it. We provide professional services such as engineering, design, construction, and maintenance services across all technologies, for both wireline and wireless communications. Industry leaders in cellular service needs, Small Cell, DAS, WiFi, tower construction, broadband, blown fiber optic cable technology and installation, wireline construction and emergency maintenance services all across the country. We combine cutting-edge technology, innovative solutions, skilled professionals, and an unfailing commitment to safety to ensure customer satisfaction. Each member of our leadership team has at least 25 years of wireless and wireline telecommunications industry experience.

### **Wireless**

We provide site acquisition, construction and cell tower maintenance services for some of the nation's largest cellular, broadband, and digital-data providers.

- Material Procurement and Management
- Site Acquisition and Permitting
- Cell Tower Construction
- Backhaul

- Node Facilities
- Distributed Antenna Systems (DAS)
- Small Cell
- WiFi
- Hub-Site Locations
  
- RF Engineering
- Material Procurement and Management
- Municipality, Utility, Franchise Negotiations and Interface
- Zoning and Permitting Approvals
  
- Project Closeout Documents and Certification
- PIM, SWEEP and Fiber Testing
- Disaster Recovery
- On-Call Cell Tower Construction Services

## Wireline

Our work continues to support the world's most advanced fiber optic networks in the country.

- OSP / ISP Fiber
- FTTX Deployment
- OSP Cabling (Underground and Aerial)
- Copper/Coax Cable Systems
- MDU Installation
- Splicing and Testing
- Systems Integration
- Feasibility Studies and Financial Projections
- Start-up and Testing Services
- Right-of-Way
- Blown Fiber Technology
- Fiber – Optical Network Design
- Engineering
  
- Emergency Restoration
- Pole Replacement and Removal
- Disaster Recovery
- On-Call Construction Services

## Broadband Services

Copper River Telecoms' expert broadband design, installation, and maintenance capabilities enable our customers to provide reliable cable and high-speed Internet service to millions of satisfied consumers across the nation.

- Network Engineering
- Data Center Design , Installation and Operations
- Emergency Restoration
- Disaster recovery
- On-Call Construction Services
- Coax Sweeps Tests and Replacement
- Generator Maintenance
- Battery Load Tests and Replacement/Disposal
- Shelter and HVAC Maintenance
- Electrical and Grounds Tests
- Grounds Maintenance
- Design and Engineering
- Logistics Management

### **Joanne Negron, Vice President of Copper River Telecommunications Division**

As the Vice President of Copper River's Telecommunication Division, Ms. Joanne Negron applies more than 34 years of progressive experience and a comprehensive background in engineering, project management, training, sales, marketing, and administration of technology operations, staffing, and resources. The consummate engineer, Negron is both CCNA and CCND Cisco certified and has been a key factor in facilitating the introduction of numerous strategic, significant, and high-profile new technologies in the telecommunications sector. Throughout her career and today she remains focused on innovative, future thinking technology and design that will revolutionize the industry.

Negron has proven her expertise in providing strategic vision as it relates to the telecommunications industry. During more than two decades at AT&T, she held the distinct honor of starting her career as the first female hired by New York Telephone's engineering group (AT&T pre-divestiture), and introducing advanced data services to Wall Street via assignments with the American Stock Exchange and New York Stock Exchange.

In addition to her drive for technical innovation, she has been an active Mensa member since 1997 and currently holds several international patents. Negron earned a Bachelor of Science degree in Electrical Engineering from Columbia University and a year 2015 Master of Science candidate in Engineering and Management from Massachusetts Institute of Technology.

### **John Brennan, Director – Telecom Operations**

With over 30 years' experience providing operational expertise to the telecommunications industry, Mr. John Brennan leverages his extensive telecom background to design, build, manage, and fund strategic operational plans for some of the world's largest telecommunications organizations. Brennan excels in implementing solid strategic operations that attract organic funding to foster the development of proprietary technology and allow for financial expansion, and has been instrumental in growing both U.S. and internationally based organizations through the identification and successful acquisition of competitive entities.

As former President for Nextel Communications Northeast, Brennan constructed and managed efforts to design, build, and launch the largest wireless network introduced in the U.S. at that time, resulting in annual revenues of over \$300 million while cultivating a base of 300,000 subscribers in less than 3 years.

His international expertise includes building, financing, and managing the largest cellular company in Indonesia. In this role, Brennan was the driving force behind the procurement of all equipment and financing necessary to implement an extensive network infrastructure, as well as in developing the native team requirement for continued operations.

Brennan holds a Master of Science degree in Accounting from Binghamton University School of Management, and a Bachelor of Science degree in Business Economics from State University of New York (SUNY) at Oneonta. He has assisted in the development of numerous entrepreneur programs including the now accredited BYOBiz program at Champlain College in Burlington, VT. He continues to lend his expertise to high school youth entrepreneurship and teacher tutorials, several charitable organizations, and has served as Adjunct Professor in business and finance programs at several schools including Boston College.

## **Gerald Poe, Director-Telecom Field Services**

With 25+ years of experience, Gerald F. Poe Jr. has been a pioneer in large enterprise infrastructure designs, builds and development projects, which have set a few of today's Bell-core standards. As an industry-known Telecommunications SME, Poe leverages his vast expertise in circuit provisioning/IT, network implementation, field project management, hardware/service/software acquisition/installation, RF/Wi-Fi support, network design/installation, and is an expert in cell phone carrier protocols such as GSM/3G/4G/UMTS/LTE/eLTE, driving modernization and technology upgrades for AT&T, Sprint, Verizon and T-Mobile. As the Director of Field Services for Copper River Telecom, he is responsible for all field facing operations, personnel, equipment procurement, manpower, logistics, safety, training, and global telecommunications deployments.

With an impressive roster of past success, Poe has completed successful deployments for the FDA, EPA, DOD, NASA, and several strong start-up firms, one of which (Masergy

Communications) pioneered MPLS technology and built CNN's nationwide network. Poe oversaw \$50M+ in corporate spending and was part of the team that took Telligent Communications to over \$100/share on the stock exchange. His expansive knowledge and expertise was applied to The Million Man March, where he co-designed/engineered satellite, video/audio in conjunction with International Telecommunications Consortium. As a seasoned senior AT&T certified tower manager and Tower Modernization Project Lead with Advanced Technology Integrators, his detailed high-level customer focused responsibilities made him a successful authorized Designated Agency Representative (DAR).

Poe also demonstrates expertise in database/mobile app/SQL development, Unix Host, neutral host/DAS and cellular suppression, mobile carrier regional operations, tower team coordination, and tower equipment logistics. His IT experience includes systems such as Cisco, HP, APC, VoIP integration, SMATV services management, web development, and technology integration. Gerald holds 5 patents for [SIT411.com](http://SIT411.com), and has two patents pending for telecommunications equipment utilizing nano chip technology.

### **Julio Vera, Manager-Engineering and Quality Assurance**

Mr. Julio A. Vera is a licensed professional Engineer specializing in telecommunications, control systems, and power. This diversity has been paramount to Mr. Vera's many successful projects in over 18 years of engineering experience. Julio is a revenue conscious engineer and with his involvement in many projects and designs, Mr. Vera is comfortable in a vast gamut of roles; project management, design, construction supervisor, field Engineer, systems engineering, applications engineering, sales, and technical training. He has excelled on endeavors such as the Remote Monitoring Network implementation for the Power Company, T-Mobile's latest 4G upgrade in Puerto Rico, E911 implementation for Centennial of PR (now AT&T), PRT's latest 911 network (now CLARO). His passion to learn led Mr. Vera to experiment in the house building market, where he successfully built and renovated more than 15 houses. He also went on to work at a power company, in order to be able to learn the world of the steam turbines.

Mr. Vera has an Electrical Engineering degree with specializations in telecommunications, control systems, and power. He graduated cum laude, and was featured on the 1991-1992 edition of the Dean's List. Mr. Vera has many certifications from companies such as ECI telecom, iBwave, Juniper Networks, and ADVA Optical Networking.

### **Strategic Partnerships, Strong Infrastructures, and a Commitment to the Partner Ecosystem Provide Value through the entire Channel**

#### **Copper River offers its clients access to our strategic alliances with leading technology vendors**

We are also an authorized training center for Cisco Systems and have both Cisco and Juniper Networks certified instructors on staff. This allows us to handle the tough

projects from inception to implementation, and properly facilitate the hand-off and make sure the proper personnel have the right knowledge to maintain and move forward.

We are aligned with multiple vendors from a server and storage perspective as well as the underlying networking infrastructure and virtualization points of view. The use of multi-vendor experts, allows us to bring the best solutions to bear for your specific situation, rather than tying you down to one particular vendor, or forcing you to decide whose marketing you prefer! We offer Consulting through a “purely scientific” methodology.

A10 Networks is the leader in [Application Networking](#), helping organizations of all sizes to accelerate, optimize and secure their applications. A10's primary market for Application Delivery Networking is driven by the massive growth of global IP traffic and expected to double to \$2.9 billion in four years (source: Gartner).

Optical+Ethernet innovation enables Adva to advance the transformation of packet-oriented optical networking and increase the efficiency of existing network infrastructures. Adva's scalable Wavelength Division Multiplexing (WDM) technology provides more capacity, higher speeds, longer reach and a greater utilization of optical networks. As a result, networks become more manageable, operate more efficiently and transport considerably higher bandwidth for high-volume data transmission.

## ARISTA

Arista Networks was founded to deliver software defined cloud networking solutions for large data center and high-performance computing environments. With more than one million cloud networking ports being deployed worldwide, Arista delivers a portfolio of 1/10/40 and 100GbE products that redefine network architectures, bring extensibility to networking, and dramatically change the price/performance of data center networks.

## BROCADE

**Elite/Professional Services Partner-** Brocade leads the industry in providing comprehensive network solutions that help the world's leading organizations transition smoothly to a virtualized world where applications and information reside anywhere.

As a result, Brocade facilitates strategic business objectives such as consolidation, network convergence, virtualization, and cloud computing. Today, Brocade solutions are used in over 90 percent of Global 1000 data centers as well as in enterprise LANs and the largest service provider networks.

**Gold/R&S/Network Security/UC and Wireless/Authorized 360 Cisco Learning Partner-** Cisco Systems is the worldwide leader in networking for the Internet. Today, networks are an essential part of business, education, government and home communications, and Cisco Internet Protocol-based (IP) networking solutions are the foundation of these networks. Cisco hardware, software, and service offerings are used to create Internet solutions that allow individuals, companies, and countries to increase productivity, improve customer satisfaction and strengthen competitive advantage.

**Preferred/Enterprise Architecture Partner/Certified Server/Storage/Virtualization Specialization-** Increasing IT efficiency can help you cut maintenance costs from 80 percent to 50 percent of your IT spending. In total, Dell has worked with customers to eliminate \$200 billion in IT inefficiency from the \$1.2 trillion spent annually on IT worldwide.

**Gold/Certified Instructors/Professional Services Partner-** ForeScout Technologies is a leading provider of automated security control solutions for Fortune 1000 enterprises and government organizations. With ForeScout, organizations can accelerate productivity and connectivity by enabling people to access corporate network resources where, how and when needed without compromising security.

**Elite-** HP Converged Infrastructure provides the foundation for agile service delivery while integrating server, storage, networking and management resources to deliver the data center of the future today. Overcome the constraints imposed by rigid IT silos by transforming your data centers into an environment that rapidly adapts to your changing business needs. Our solutions help you optimize your data center to reduce operating costs, improve operational processes, enhance service levels, and address sustainability requirements.

**Elite/Network Infrastructure/Advanced Security/Service Provider/Certified Implement & Operate Specialist/Certified Instructor-** Juniper Networks continues to build a highly successful portfolio of solutions addressing high-performance, secure networking for the entire enterprise, from the data center and the desktop to geospatial applications involving multiple partners and huge amounts of data. Juniper’s end-to-end networking solutions include best-in-class IP switching, routing, security (SSL VPN, firewalls, intrusion prevention), application acceleration, and network management.

**Reseller Partner-** McAfee is the world’s largest dedicated security technology company. Delivering proactive and proven solutions and services that help secure systems and networks around the world, McAfee protects consumers and businesses of all sizes from the latest malware and emerging online threats. Our solutions are designed to work together, integrating antimalware, antispymware, and antivirus software with security management features that deliver unsurpassed real-time visibility and analytics, reduce risk, ensure compliance, improve Internet security, and help businesses achieve operational efficiencies.

**Platinum/Certified Professional Services Partner-** Palo Alto Networks’ next-generation firewalls enable enterprises to identify and control applications, users, and content—not just ports, IP addresses, and packets—using three unique identification technologies: **App-ID**, **User-ID**, and **Content-ID**. These identification technologies allow enterprises to securely enable application usage using business-relevant concepts, instead of following the traditional “all-or-nothing” approach offered by traditional port-blocking firewalls used in many security infrastructures.

**Premier-** VMware is the global leader in virtualization solutions from the desktop to the datacenter – bringing cloud computing to government agencies and businesses of all sizes. VMware virtualization solutions help address critical IT issues, including server consolidation, test and development, and desktop manageability and security.
