Dear FCC Commissioners,

I urge you to consider the negative and far-reaching implications of new Internet rules currently proposed. I firmly believe that the rules being proposed fly in the face of the current concept of Net Neutrality. As I am sure you know by now, I am not alone in this belief.

The introduction of these new rules will stifle innovation and further exacerbate the growing chasm between the rich and the poor.

If you have any questions, please let me know.

Best,

Patrick Rastelli
