

Dear FCC:

I think it's OUTRAGEOUS that you would even consider allowing crooks like COMCAST to FILTER, SLOW DOWN, CONTROL, CHARGE HIGHER RATES for content or transmission speed to users of the Internet, especially since corporations like Comcast have MONOPOLIES on the internet in thousands of areas across the U.S. where THEY are the ONLY choice for internet transmission... both for individual home users and BUSINESSES. This will effectively allow them to PICK AND CHOOSE which businesses (that use and depend on their Internet websites for sales and information) succeed and which businesses FAIL.

Allowing them to charge higher rates for use and for faster transmission speeds to organizations that share content with the public HAS ALREADY FAILED in recent SCANDALS where COMCAST was SLOWING DOWN TRANSMISSION on content THEY DIDN'T LIKE.

The Internet should simply and IMMEDIATELY be RECLASSIFIED as a 'TELECOMMUNICATIONS SERVICE' and put an END to this nonsense.

INTERNET MONOPOLIES and CENSORING CONTENT IS TANTAMOUNT TO THROWING THIS WORLD BACK INTO THE DARK AGES. IS THE U.S. NOW LIKE CHINA??? The effects of this will be FAR more reaching than economics... it will be disastrous to HUMAN CONNECTION. DIVIDE AND CONQUER.

If you DON'T reclassify the Internet as a TELECOMMUNICATIONS SERVICE, the FCC will be seen, like the U.S. Supreme Court as BLATANTLY and SHAMELESSLY being in the pocket of the rich and corporate interests... which, in my mind, is nothing LESS than FASCISM. That is a word I use very cautiously, but we're balancing very dangerously on the EDGE OF FASCISM in this country... Where will it stop??
