Appears over the air digital broadcast in the surrounding Dallas Fort Worth area is set a minimum power which results in broadcast transmission being sporadic at best, could it be this power setting level is a manner and means to force widower's, retiree's, social security recipients to purchase subscription service. FCC suggests a 30ft external antennas is not available for installation by elderly and or renters, so you have placed many people into harms way. Where the old analog may have gotten grainy, warning messages could have gotten out. Digital power at non-emergency times turns the people away...
