

7521101198.txt

Hello,

Pardon for my pseudo anonymity, I would like to voice the opinion of many of my friends family and co-workers. Please Keep the web Open. You will accomplish nothing by adopting these new policy's. The people of this country will only suffer and you will set a standard that other country's will follow. Do you really want to start the world on a path that will hurt nearly everyone living and that have yet to live?
