Re: Proceeding 14-28, Protecting and Promoting the Open Internet

To whom it may concern,

I am writing to request that the FCC reclassify broadband internet as a telecommunications service, a common carrier.

I served in the Peace Corps in the Philippines from 2010 to 2012. In that time my sole method of communication with friends and family in the US. Now, I'm a student studying communication disorders via an online program, to become a speech and language clinician. An open internet has been and continues to be vital to my life, livelihood, and well-being.

The Internet is clearly far more than a simple vector for entertainment. Please don't put its future in the hands of a few companies.

Thank you for your consideration,
Emma Meador
