

7521104366.txt

This merger is of great concern to me and many other Americans. Allowing Comcast and Time Warner to merge would create a void of competition among these ISPs. The monopoly created by this merger will only halt the enhancement of the internet in America, and make it more difficult for competition to emerge. Please help to improve the internet by disallowing the merger between Comcast and Time Warner to take place.

Thanks for your time,
Gregory Barron.
