What is, Tom Wheeler, former lobbyist for telecommunications companies, venture capitalist, and formerly President of the National Cable Television Association (NCTA) and CEO of the Cellular Telecommunications & Internet Association (CTIA)... DOING

as Chairman of the FCC?? His appointment was WRONG on many levels.

This support of new rules which would VIOLATE the spirit and actuality of net neutrality is OUTRAGEOUS. It is a betrayal of our trust. You work for the PEOPLE, the OF, BY, and FOR THE PEOPLE people, the internet is of, and for the people.

We, the people will not benefit by this new vision of the internet, whereby those with the big, big bucks get to occupy an internet fast lane providing a swift path to their sites, leaving the rest of us in rush-hour traffic of a slow-lane internet.

Oppose any changes that would harm net neutrality.
