To whomever it may concern,

I doubt you, or any human would actually read this, but in case one does:

Please protect Net Neutrality. Please reclassify broadband internet as a title II common carrier telecommunications service.

Please don't allow bribes to blind you from doing what's right, if you are being offered bribes. Protect the free internet from a few rich individuals who are only looking for ways to get richer, by making up yet another service that is completely and utterly unnecessary and clearly self serving for them (prime for corruption).

Kind Regards,

Jainai Jeffries
