

7521112242.txt

I support Net Neutrality. I oppose any attempts or regulations that will allow carriers to differentiate rates or service on the basis of pricing, source, consumer, or any other method.

I support reclassifying broadband internet as a title II common carrier telecommunications service.

I am a registered voter in US Congressional District 32--Congressman Pete Sessions and have also informed Congressman Sessions of my views.

Sincerely,
Michael S Braden
