Re: Docket No. WC-14-68; Competition Policy Division File No. 1149

Dear Mr. McDonald:

We represent CC Fiberlink, LLC (“CC Fiberlink”). This letter responds to questions raised by the Competition Policy Division (the “Division”) concerning the scope of the discontinuance of interconnected VoIP service (the “Service”) for which CC Fiberlink has requested authority in the referenced docket.

The Division has requested further information regarding any effect of the grandfathering of this interconnected VoIP service on existing customers for the service. In particular, you have indicated the Division’s concern that notice to existing customers would be necessary if, after grandfathering, they would be unable to make changes to their service that they can make today, or if existing service to them would otherwise be reduced or impaired.

There will be no change in the Service provided to existing customers after grandfathering. Both before and after discontinuance, existing customers will have the ability to add or delete a second line, to add or remove vertical features on an *a la carte* basis, and to select an interexchange carrier of their choice. Service to these customers will not otherwise be reduced or impaired in any way. Accordingly, notice to existing customers of the grandfathering of the Service is unnecessary and would be potentially confusing.

I trust that the foregoing is responsive to the Division's concern. Please direct any further questions concerning the Application to the undersigned.

Very truly yours,

/s/ Charles V. Gerkin, Jr.
