

7521116712.txt

There are two choices for internet in my location: Comcast (Cable) or Century Link (DSL).

Having used Century Link at my last residence for 4 years, having to call at least 3 times a week due to poor connection or no connection - we decided to try Comcast at our current residence. Comcast has repeatedly throttled the bandwidth we pay for and refuses to provide the speeds advertised.

If you complain to either of these companies, you are put through a loop of customer rep after rep - only to be frustrated and angry, with no resolution to the issue. Allowing this merger will only strengthen Comcast's stronghold on my community and other communities around the country.

We need more providers, not less. Do not approve this merger.
