To Whom it may Concern:

I am writing this letter to show my support of net neutrality, as I believe it is central to maintaining current, essential freedoms. This principle should be applied to proceeding 14-28 through an FCC ruling that ISPs should be treated as common carriers. In other words, I believe that the FCC should designate broadband Internet as a Title II Communications Service.

As a politically active citizen and outspoken constituent in my district, Rhode Island's Second Congressional District, I hope that my elected officials pursue these aforementioned ideals on my behalf. As a young voter, student, and regular Internet user, I can attest to the fact that the overwhelming majority of my peers also believe that ISPs should treat data equally.

Thank you for your attention to this letter.

Regards,
Christina Fournier
