**Re: Notice of *Ex Parte* Presentation**

**RE: GN Docket Nos. 14-28, 10-127, 09-191; WC Docket No. 07-52**

Dear Ms. Dortch,

This letter is to advise you, in accordance with the Commission's rules, that on May 6, 2014, I spoke over the phone with Amy Bender, Commissioner O'Rielly's Legal Advisor for Wireline issues.

The substance of my presentation was fully consistent with the petition submitted by Mozilla to the Commission on May 5, 2014, also filed in the above Commission dockets. Specifically, we discussed the role of network management technologies in the context of the petition's treatment of technical and market evolution in Internet access services. We discussed substantive and procedural intersections between the Mozilla petition and the open proceeding on adopting rules to protect the open Internet, including the forthcoming Notice of Proposed Rulemaking. I contended that the Mozilla petition raised issues of authority that were connected to substantive discussions around open Internet rules, and that the conversations should be had together to ensure that all ideas are being discussed and that all options remain open.

Sincerely,

/s/ M. Chris Riley

M. Chris Riley  
Senior Policy Engineer
