the internet should remain equal for all people and that it should stay a neutral place. There should be no slow-downs to ANYTHING on the internet. Also, if i have to start paying for my internet use.... I am going to never go on the internet again. That is going to be a big step for me. I go on YouTube everyday and I don't know what else I am going to do with my day. And what about the people that make money off of YouTube? Like Shane Dawson and Tyler Oakley? What are they going to do? They are most likely going to lose more than half of their views and subscribers.
