Comment: I would depend on 911 being able to find me in case of an emergency. I live alone and I have seizures. I have about 30 seconds to call someone (911) before I am unable to talk or help myself any further. Luckily, it has been a while since I have had one, but I never know if and when I am going to have one, so a 911 response is very important to me. I have had to have EMS respond to me on several occasions to help me. I tend to stop breathing during my seizures, so a quick response time is really important to me. So, please do whatever you can to make sure 911 knows exactly where we are.

Thank you.
