

7521125010.txt

Hello,

I'm writing in support of maintaining internet neutrality now and in the future of the world wide web. Keep treating all the data the same, and do not sell out to companies who are pushing to get rid of net neutrality. That would be a disaster!

This is so important for everyone today and for generations to come.

Thank you,
Patricia Vidal,
Graduate Student of Health Management and Policy, SDSU
