Dear FCC,

I'm B Barrett and I live in Arroyo Grande, CA.

Net neutrality, the principle that Internet service providers (ISPs) should treat all data that travels over their networks equally, is important to me because without it users may have fewer options and a less diverse Internet.

A pay-to-play Internet worries me because ISPs could act as the gatekeepers to their subscribers.

The Internet is important to me because, as a retired person, I need to know that there will not be barriers to entry for the new ideas and services that I hope I can access.
