### Appeal Explanation:

Clear Passage Education Center is a new charter and new to the E-Rate program. Their vendor evaluation process was impacted by the process of planning for the infrastructure elements that would be needed to support California State's Mandatory Common Core Field Testing next year. In this process, the school's technology needs shifted based on the need to support device concurrency and hence the vendor evaluation process took a little longer than the required 28-day competitive bidding window.

Like waivers granted in similar cases, ie Request for Review of the Decision of the Universal Service Administrator by Bishop Perry Middle School, New Orleans, LA, et al., *Schools and Libraries Universal Service Support Mechanism, File Nos. SLD-487170, et al., CC Docket No. 02-6, Order*, the impact of mandatory online testing is an unusual and extraordinary circumstance.

The school's Form 471 application was submitted on March 28, 2014 and a paper certification was received by USAC on April 2, 2014. The 14 day window period for the completion of the filings of the applications in these matters was April 9, 2014

The assistance that Clear Passage Education Center will receive from the E-Rate Program is vital to their school's operation and student achievement. Hence, I respectfully request that Clear Passage Education Center is granted a waiver to the 471 deadline due to special circumstances that were detailed above.

Sincerely,

Beverly Sutherland
