

FCC 14-57

Comcast & Time Warner Merger

I hope that the FCC will reject this merger as it goes a long way toward imposing monopoly in cable television services to people in municipalities that have actively searched for options in purchasing for the constituents. This merger is being initiated by a company that has a long history of making promises to the general public and to politicians then failing to meet those promises.

The people of this country are crying out against this, would the FCC please go with the will of the people not the corporations.
