

7521130303.txt

I would like to express my feelings of disappointment in the FCC's recently passed plan to allow telcoms to alter bandwidth speed on a per-content-provider basis. Further, please let the rep/senator know that I rise in support of reclassification of internet service providers under Title II entities.

This ruling is an insult to the intelligence of the American people and should never have been considered.

"I am in this race to tell the corporate lobbyists that their days of setting the agenda in Washington are over. I have done more than any other candidate in this race to take on lobbyists ? and won. They have not funded my campaign, they will not run my White House, and they will not drown out the voices of the American people when I am president."

-- Barack Obama, Speech in Des Moines, IA
November 10, 2007

"Thomas E. Wheeler is the current Chairman of the Federal Communications Commission, appointed by President Obama and confirmed by the U.S. Senate in November, 2013."

"If consumers receive lower speeds on any website than they paid for, then by these rules that would be commercially unreasonable, and therefore not allowed."

--Thomas E. Wheeler
