

7521132791.txt

I want the FCC to use its full authority to classify the internet as a Common Carrier under Title II of the 1939 Telecommunications Act. The internet is the most powerful tool ever created and pretending like an entity designed for profit will have the wisdom to regulate that tool is selfish. Please protect our freedom of expression and for once have the courage to do something democratic. Your great grandchildren will thank you for it.
