

Your website URL is FCC.gov. Do you know why it ends in "Dot" "GOV"? It is because your organization is part of the government of the United States of America. This governing body is made up of our peers that we have voted into office to serve the better good of the public.

Your current actions do not reflect what is good for the public, our freedoms, and our rights.

Your actions endanger the very nature of the internet. Freedom of speech in the purest kind.

Where no voice can be silenced. Where a single voice can grow into a thousand screams for

justice and overthrow cruel governments as we have seen in the Arab Spring. You are being

brought to your knees by greedy Corporations whose sole purpose is to enrich themselves.

You have let yourselves bend to their will. And by doing so ignore your primary objective.

SERVE THE PEOPLE. You have failed for the last time. You failed to investigate the claims

of illegal wiretapping by the NSA (and by doing so failed to protect our freedoms). You have

failed us again by letting greed supersede what is right and just. I hereby call for the complete

deconstruction of the FCC. You are incapable of doing, or listening, to the will of the people

who not only pay for your checks, but you are under oath to protect. Therefore you serve no

purpose. Let me remind you of your original charter which you have clearly forgotten.

"regulating interstate and foreign commerce in communication by wire and radio so as to make available, so far as possible, ***to all the people of the United States*** a rapid, efficient, nationwide, and worldwide wire and radio communication service with adequate facilities at reasonable charges"

In my eyes you have failed to represent the interests of the people. You don't need to be held

responsible since your organized clearly does not understand what responsibility means. You

need to disappear. Dissolve.

I, citizen of the United States of America Thomas Stevens, call for the dissolution of the FCC,

a freeze on all current regulations and charters regarding communication etc., and the

creation of a new organization to take its place.

You are broken. Like many parts of our government beyond repair.
