

7521149883.txt

Allowing 11708 to become law in the amateur radio community will cause possible severe interference to these bands and modes and could reduce and possibly destroy the amateur use of these traditional bands and modes. All of us have worked hard to secure the privilege of using them with our licenses and expensive equipment through the years and the close knit fraternity it has created. Traditional amateur radio was just touted in the tv media as getting the job done in emergencies where the latest electronic equipment has failed, we need to continue as we always have, no new problems!
