Small businesses make up: 99.7 percent of U.S. employer firms, 64 percent of net new private-sector jobs, 49.2 percent of private-sector employment, 42.9 percent of private-sector payroll, 46 percent of private-sector output, 43 percent of high-tech employment, 98 percent of firms exporting goods, and 33 percent of exporting value. An unequal Internet would be a huge financial boom to large corporations AT THE EXPENSE of the US economy and the average citizen.
