EX PARTE OR LATE FILED

Dear Chairman Wheeler,

A merger of Comcast and Time Warner, the two largest cable companies in the country, would be a bad deal for consumers, leading to less competition and likely higher prices for subscribers.

I'm writing to urge you to oppose the merger of Comcast and Time Warner and fulfill your responsibility to promote competition and protect the public interest.

The Comcast-Time Warner behemoth would dominate the market, servicing nearly 30% of all American cable subscribers. It could slow or even block Internet traffic from content providers like Netflix and Hulu if it decided it didn't want the competition.

It would in time demand higher fees from content providers, an expense that would inevitably be passed on to subscribers.

The Federal Communications Commission is charged with determining whether the \$45 billion merger is in the interest of consumers. It is not. You must oppose the merger and block the creation of a new cable monopoly.

Please let me know how you intend to address this issue.

Sincerely,

Patricia Mitchell
