

To Whom It May Concern:

The LMCC argues that incumbent SMR 800 MHz operators are more deserving of 800 MHz Expansion Band/Guard Band frequencies. My partners and I are planning on using this 800 MHz spectrum to benefit the public with high quality data services. The LMCC Petition should be denied in the interest of fairness. We had to wait a long time for our licenses and followed the steps to earn them. Giving incumbents this 6 month window almost ensures no new applicants would have a chance of receiving any licenses. Granting these incumbents an exclusive 6 month window would effectively be a dead end for entry by new entrants.

I hope you will not grant this 6 month option to incumbents.

Thanks,  
Tom Zarob
