

7521154823.txt

It doesn't matter how much you protect internet at schools and libraries. You won't be protecting our education. As an undergraduate biology student and a research fellow, I can say we are learning everywhere, all the time. And our education is increasingly reliant on the internet. I have already had problems with the new internet regulations. Net neutrality is very important to me. Please restore equal internet access to everyone.
