You god damn bastards! How about we chop off a right leg of every hard working, freedom loving, proud American and tell them they have to pay a premium to be able to use a prosthetic leg along with having to purchase that damn prosthetic!

I'm sorry we can't shove money up your gaping asshole, I'm sorry we can't buy you a car, get you a castle, or buy you that penis pump you so desperately need Mr. Chairman. But damn it, they fucked with our transportation, they fucked with our military, and now you think you going to fuck with our internet?! You can hide your venom spitting words in that boring ass legal speak mumbo jumbo, but we see FCC. We see.

You want me to pay for a fast lane?

Do you accept gold plated, red white and blue boots shoved 3 feet up your sorry ass? Cause buddy, we ready to pay.
