Dear FCC,

There is a special place in hell for you people if you go ahead and end Net Neutrality. Net Neutrality is one of the few good things this government does and your trying to fuck it up is proof that you people are in bed with the cable companies. Please do the right thing here and get out of bed with the cable companies. Please dont make things harder for Americans. We already pay to access the internet and you know these so called hyper-speed lanes are bullshit. The current system is not broken; dont try to fix it.

Sincerely,

America
