I sincerely hope everyone at the fcc knows they are destorying the entire country, do you even care that you're quite literally the devil? Do any of you even have a concience? A moral compass? Anything that makes you even kind of human?

You aren't even people, you're antomitions based with actions that are deplorable in every sense of the word and you do it without wince or concious and with an extreme calous to anyone who's lives will be effected by your extreme greed.

You are worse than the mafia, worse than street gangs, worse than the most corrupt politicians(oh wait you're the same people), you have no right to even be an originzation at this point. Heck, you don't even have the right to call yourselves people at this point.

You are all criminals, you should all be in prison. But we live in America where money buys justice or an extreme lack thereof.

I am a Christian and I will not curse nor damn you, but I truly want you to know you are deplorable people doing deplorable things to this country for money and greed. How you sleep at night I honestly will never know.
