To whom it may concern:

I obviously am in favor of net neutrality, but it's abundantly clear by this point that your entire Commission has been corrupted by telcos and big business, screwing yet again the common man.

So it doesn't matter really what I say while you tools profit from the sale of democracy and the corruption of moral America.

Enjoy your teats of evil. Perhaps one day you will be able to look in the mirror and not fool yourselves when you think you're decent human beings.
