Re: *Wireless E911 Location Accuracy Requirements*, PS Docket No. 07-114

Dear Ms. Dortch:

The Texas 9-1-1 Alliance,<sup>1</sup> the Texas Commission on State Emergency Communications,<sup>2</sup> and the Municipal Emergency Communication Districts Association<sup>3</sup> (collectively, the "Texas 9-1-1 Entities") respectfully submit this letter in support of The Wireless Association®'s ("CTIA") request dated May 29, 2014 for a 30-day extension of the reply comment deadline in response to the Third Further Notice of Proposed Rulemaking in the above proceeding to July 14, 2014.<sup>4</sup> The Texas 9-1-1 Entities agree that the 30-day extension is warranted given the importance of the substantive issues involved and the number of comments filed in this proceeding.

---

<sup>1</sup> The Texas 9-1-1 Alliance is an interlocal cooperation entity composed of 25 Texas emergency communication districts with E9-1-1 service and public safety responsibility for more than approximately 60% of the population of Texas. These emergency communication districts were created pursuant to Texas Health and Safety Code Chapter 772 and are defined under Texas Health and Safety Code Section 771.001(3)(B).

<sup>2</sup> The Texas Commission on State Emergency Communications ("CSEC") is a state agency created pursuant to Texas Health and Safety Code Chapter 771, and is the State of Texas' authority on emergency communications. CSEC oversees and administers the Texas state 9-1-1 program under which 9-1-1 service is provided in 214 of Texas' 254 counties, covering approximately two-thirds of the geography and one-fourth of the state's population.

<sup>3</sup> The Municipal Emergency Communication Districts Association is an association of 26 municipal emergency communication districts, as defined under Texas Health and Safety Code § 771.001(3)(A), that are located primarily in the Dallas-Fort Worth area.

<sup>4</sup> *Wireless E911 Location Accuracy Requirements*, Third Further Notice of Proposed Rulemaking, 29 FCC Rcd 2374 (2014) ("NPRM").

Respectfully submitted,

Michael J. Tomsu
