I find it absurd and offensively corrupt for the FCC to even be considering any deviation from complete Net Neutrality. Let me be completely clear. I will assist in public demonstrations if my access to any facet of the internet is degraded. If cable companies are allowed to control access to sites in any way, be it speed of access or other controls, there will be public outrage in the streets. Do not mistake this to be a dramatization. The internet is the one thing keeping the sheep in their pens and when you mess with it, there will be chaos.  
DO NOT TAKE AWAY NET NEUTRALITY. I REPEAT, DO NOT ALLOW CABLE COMPANIES TO ALTER INTERNET ACCESS OR SPEED.
