How is it that the FCC is going to be ran by a former lobbyist for the cable companies, Tom Wheeler, is going to regulate laws for the companies he lobbied for. What sense does that make? The fact that cable companies in the U.S. have some of the worse internet service is ridiculous; I have gone to other countries and had faster service in 3rd world companies. You guys, I'm talking about the FCC are so blind; your function is to protect the consumers from huge corporate entities. To the lower level government employee that has to read my comment I want you to think about the fact that you're going to be fucked over as much as the rest of us. Open your eyes and fight for the rest of us, just like you, you could be the one to make the change. Do you want men like Tom Wheeler profiting from the corrupt charging for internet use?
