The recent movement to destroy the idea of net neutrality in this country, which is being backed up by the FCC with this new proposal is appalling.

This proposal is nothing more than a perfect and concrete example of how corporate lobbyists (I'm looking at you Comcast) have completely taken control of our government, and our corrupt officials do not have enough soul left to stand up to them to do what's right for the people. Way to support monopolies (cable companies) guys. Good job.

Seriously, how do you sleep at night? If my sarcasm offends you, I apologize, but your "policy making" offends me just as much, I assure you.
