A 2 tier system is a blasphemous act. This blatant step to dismantle Net Neutrality will not be tolerated by we the people. If your goal is to unite the world against the FCC, circumventing net neutrality in any way, is a great way to unite us. Do not allow cable companies to create a wealthy 1% club on the internet, as they have in our economy. A level playing field is a basic human right of the tech age. Keep it that way.
