

Federal Communications Commission

Re: 14-28 Protecting and Promoting the Open Internet

As a citizen of the United States of America and a user of the Internet and World Wide Web, I demand the Internet remain as it is and as it should, totally and eternally OPEN and NEUTRAL.

This proceeding is fucking ludicrous!

The large communications corporations have deep pockets – we understand – please though correct your posture my good Americans, remove the huge corporation COCK from your ASS!!!

Best,

R. Barrios
