

752123~1.TXT

The idea of ending net neutrality sucks balls. And not just any balls but yak balls. I think the people who thought this up should have to drink a decoction of yak balls. It's that bad. This is one of the worst ideas in the last thirty years. This is the FCC giving a blowjob to two cable companies -- companies who are de facto monopolies and should be broken up like that old whore Ma Bell.
