I am against the merger of Time Warner and Comcast Cable systems. By allowing these two cable giants to merge, consumers and communities will have fewer opportunities to allow competition between providers. A mega cable company is not in the interest of the consumers. Time Warner and Comcast claim they are not competitors, and they are not. They have colluded to allow each other regional monopolies to better take advantage of the consumer. I support the reclassification of Broadband providers as Title II Common Carrier Entities. The service of both providers is abysmal and is guaranteed to get worse after the merger. I do not approve of the proposed merger.
