Cable companies have the means to provide telecommunications services to every corner of the world. If they are given preferential treatment such as being allowed to make agreements among monopolized cable companies to only operate in certain cities so as to limit competition then they must be required to provide service to all those that subscribe to their service within their realm of influence. If they refuse to provide service to even one customer then the company should be heavily fined, the staff member that denied the customer service should be fired and convicted of a federal crime, and the supervisor that hired trained or supervised the staff member should be fired and convicted as well.

Having access to the internet and other telecommunication services is a human right and to deny anyone that right because of "profitability" is a crime against humanity. Get your hands out of the cable companies pockets and start DOING YOUR JOB!!!

WORK FOR THE AMERICAN PEOPLE! MAKE SURE THAT THE PEOPLE ARE TAKEN CARE OF! NOT THE CABLE COMPANIES WHO NO MATTER WHAT WILL ALWAYS PAY BUT WILL ALWAYS MAKE YOU A TWISTED CORRUPT INDIVIDUAL THAT WILL NEED TO FACE UP TO HIS OR HER TRANSGRESSIONS IN THIS LIFE!

THINK ABOUT THE RIGHT THING. SEARCH YOUR HEARTS AND DO IT!!!!!! DON'T JUST TAKE THE MONEY. TAKE THE PATH OF RIOTOUSNESS AND FIGHT AGAINST THESE DESPICABLE MONSTERS.

Best,
Your consci ence
