May 27, 2014

The Honorable Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler:

Regarding the matter of an Open Internet, please count me as a citizen who believes that the FCC should classify the Internet as a common carrier. To do otherwise would ultimately create an Internet with "fast-lanes," tiered access for businesses and consumers, and an overall "pay-to-play" scheme which will be unfavorable to all...except big business.

Thank you for your attention to my statement.

Sincerely,

Adam Jakupi
Elgin, Illinois
