It really pisses me off how you wealthy monopoly guys just keep illegally coming up with new ways to fleece the middle and lower class! I am against the 2 tier internet and I'm against the political corruption that is taking place trying to change the laws to their greedy benefit!! I'm a very patriotic person. This is the kind of bull shit that gives America a bad name!!!

Stop the madness. Start doing what is right and not just making the upper 1% richer!
