Really? We haven't been fucked enough? Are our assholes not quite bludgeoned and bloody enough for you? Need to tenderize that meat a little bit more for your next great idea? Clearly Cuntcast isn't big enough just yet. Let's give them some more company's so they can assert total control over our lives. Sounds fucking fantastic. My nipples are getting hard just thinking about it. Why don't you just let them run the FCC? It's not like they aren't already... this would just make it official. You work SO hard and deserve a vacation. Eat a big bag of baby dicks you miserable cunts
