

7521328591.txt

The internet is for everyone! Not just the people who can pay lots of money for their content to be faster than everyone else's. Small businesses utilize the internet everyday to reach millions of people that without the internet would not be possible. Please do not put us in the shadows of big business. Net Neutrality is important to give small businesses a chance to compete fairly with big business. Please don't take that away from us.
